<b>MONDAYS</b>			
<p><b><u>STEM Velocity Lab</u></b>            Students will enjoy this lab introducing the fundamentals of computer programming using Scratch and Python. Lessons include how to design in TinkerCAD to create personalized 3D pumpkins, make Pixel Art, and learn the Art and Design of Use Cubes. Participants will also create art simulation while coding in JavaScript, as well as create web-based games in Scratch. All materials and programs included.</p> <p><b><u>Art Club: 3D Exploring Concepts of Three-Dimensional Forms and Ideas</u></b>            This club is offered for students wanting to come together after school and further explore exciting art concepts that can be better achieved in smaller groups. Concepts focus on bringing a 2-D drawing into a 3-D sculpture. Students will be challenged to take the basic elements and principals of design and realize them in-the-round to create balance and harmony from all sides of the form. This trimester, we will create a sculpture using a base with copper and aluminum armature to build a clay sculpture around! Basic tools, construction techniques, and materials will be taught and utilized in this segment. This 3-D segment will prove to be both challenging and fun!</p>	K-2	3:30 - 4:30pm	\$145
	3-5	4:30-5:30pm	\$145
